whitening and repairing properties. Omyacare® is pure white natural calcium carbonate with strong opacity and mastered particle sizes that can be used in skincare and color cosmetic formulas. A broad spectrum of specialty ingredients such as natural color pigments and sugar-based surfactants were also showcased.

Omyadent® particles have a core of calcium carbonate and a shell of hydroxyapatite, the main constituent of human tooth enamel. The large surface area of the tailor-made Omyadent® 100 – OG elements ensures high reactivity and the ability to repair microscopic defects through remineralization of tooth enamel. This results in a smoother and therefore whiter tooth surface.

The Omyacare® range consists of different natural calcium carbonate particles that provide multifunctional ingredients for innovative skincare cosmetics. These minerals are ECO-certified and can be used in a variety of applications, including emulsions (o/w and w/o) and anhydrous (non-powder) formulations, to provide body and texture. They deliver smoothness and a pleasant skin feel when used in body lotions, body creams and colored cream products which are intended for reduced tackiness and faster drying times.

Omya's showcased highlights were rounded off with high purity botanical colorants, pigments and natural antioxidants from its distribution portfolio. As such, the company's new Natural Gardenia Red colorant was introduced at in-cosmetics as an ideal ingredient for vegan cosmetic formulations.

## Alban Muller will introduce several natural innovations at NYSCC Supplier's Day

As the recipient of the Most Sustainable Company Award, Alban Muller, l'Expert du Naturel, will share its Green vision at NYSCC Suppliers Day on May 2 – 3 in New York at the Javits Center.

### 5 New Blend of Plant Extracts:

#### Cosméphyta-MIX, the ultimate plant actives cocktail to boost your formulas

Thanks to its exclusive extraction processes of active molecules, Alban Muller develops 100% natural, eco-designed plant extracts. The new Cosme-Phytamix range is a combination of plant extracts concentrated in actives for a powerful synergistic and targeted action to meet specific needs.

### 2 Innovative Cosmetic Actives, Anti-pollution:

#### Preparami® & Protectami®, the protection against pollution

Alban Muller has created 100% Natural active ingredients to prepare and protect the skin from external aggressions such as pollution. Preparami® & Protectami® are the perfect cosmetic active solutions for city dwellers.

### 4 New Skincare in vogue:

#### Ready-to-beauty, 4 new references obtained from the best of our expertise

Alban Muller enriches its exclusive offer of formulated cosmetic products with 4 new references, illustrating its ability to combine Excellence and Sustainability such as:

**The Vegetal Golden Mask:** This innovative skincare is made of a high concentration in 100% Natural Plant extracts: Cosme-Phytamis® – Ginkgo biloba, horse chestnut and red vine. This luxurious texture mask provides a sensation of well-being and relaxation. It reduces the signs of tiredness and time, it moisturizes and relaxes the skin.

### SILAB WELLAGYL®

#### Aging well is the art of being in harmony with your age

WELLAGYL® is an unprecedented cosmetic active ingredient which responds to a vision of beauty clearly expressed by women determined to enhance their well-being while staying in harmony with their age: aging well.

WELLAGYL® is a purified active ingredient, rich in oligosaccharides, from the Bulgarian rose (INCI Name: Rosa damascena), obtained from a non-denaturing manufacturing process.

The rose is the queen of flowers. It is the symbol of purity, love and beauty. The Bulgarian rose is one of the most famous and its benefits mostly target the body's general well-being. In the Antiquity, this rose was used for its effects on mood and its capacities to enhance beauty.

Available in aqueous solution, WELLAGYL® is a patented active ingredient, easy to formulate and compliant with global cosmetic regulations (Europe, United States, Japan and China).

To stay beautiful and still look your age, WELLAGYL® is recommended for all mature skin care products (recommended amount: (1 to 2.5%).
